

MATERIALS

- Lined A4 paper
- A4 paper
- Camera
- Printer
- Air-drying clay like Creall Do & dry
- Opaque gouache paint like Creall Color+
- Paper fastener
- Hole puncher

LEARNING OBJECTIVE

Writing a narrative text with the goal to entertain.
Experimentation within the context of a theme/subject
with materials and techniques to make your own clay art.

PICTURE WITH MY STORY

1

Let the children write a story with the goal to entertain within the context of a certain theme. If necessary, they can write a draft first.

2

When their story is finished, the students will sculpt something that fits their story and should make readers interested.

3

Once their clay art is dry, the students will paint it with gouache. They will take a picture once the clay is dry.

4

Print the picture on A4 paper. Put the story and the cover in a paper fastener. Let the students read each other's stories and evaluate: is it a nice story?
