

# WAVY STRING

from age 4

preparation time: 5 min

duration: 20 min

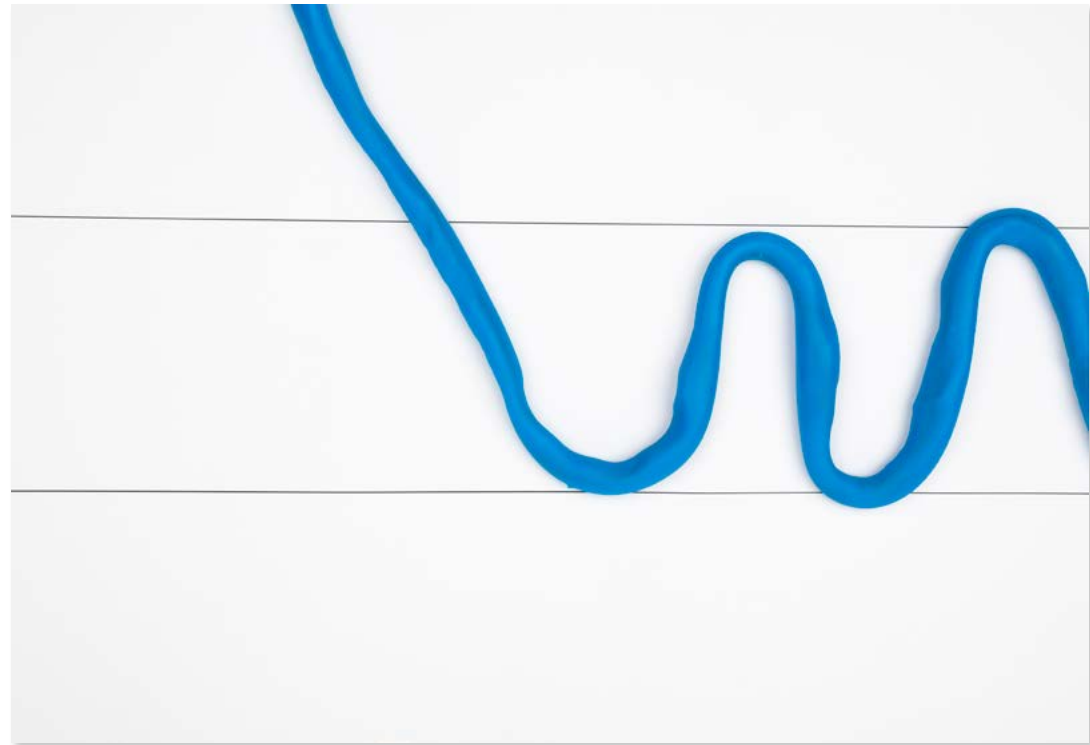

language, cognitive intelligence

## MATERIALS

- Clay (e.g. Creall Super soft)

## LEARNING OBJECTIVE

Making preparatory writing exercises. Practicing eye-hand coordination.

# WAVY STRING

1

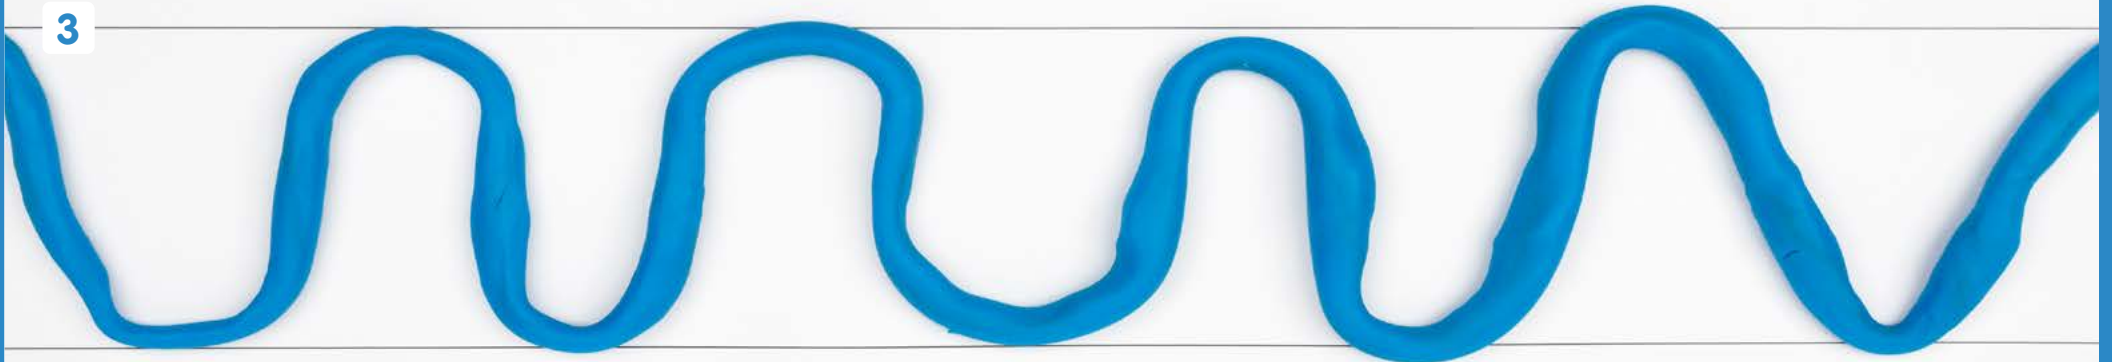

The pupils roll out a long, thin string of clay.

2

They get a large sheet with two horizontal lines with a space of 10 cm between them.

3

The kids should place the string in a wavy movement from the top to the bottom line. In doing this, they should try to keep the distance between the strings equal. Want to make the lesson easier? Give the pupils a sheet of paper that already has a pattern on it.
